HOW DO I USE MY EYESLICES®?

- Remove all eye make up, cleanse and dry your skin.
- Open the compact container completely (the whole container folds out).
- Peel back the foil lid on each oval insert.
- Remove the slices from the transparent inserts, dab off excess moisture and place one slice over each eye.
- Gently press each slice onto the closed eye to enable the slice to mould into the eye contours. The slice should comfortably stay on the eye when sitting in an upright position.
- Leave on your eyes for 5-20 minutes as desired.
- Wipe off excess with a moist cloth if necessary.
- Remove from your eyes and place back into the original container and seal shut.

HOW DO I STORE THEM?

For best results and to preserve your eyeSlices®, store in a **cool place** (less than 20 degrees celsius) in their original closed container. **Do not freeze** your eyeSlices®. Refrigerate for a few minutes before use for extra cooling sensation. **Use within two weeks after opening.**
