DV8 [expressions] the solution for creating your look this summer

DV8 [expressions] introduces a range of colour like you have never seen before, with 48 colours to choose from each made from 100% pure Mica (mineral colour pigments). Locally produced, this phenomenal cosmetic range has no additives, oils, talcs, fillers, perfumes or harsh preservatives. The stunning shimmering powders are so pure that you only need a tiny bit to get a totally beautiful effect. Use a little on your eyelids for instant eye shadow, or add it to clear nail polish to create that perfect glossy colour for your nails. Take a little clear lip gloss, add your favourite DV8 [expressions] colour powder and create a stunning new lipstick. One can truly experiment with this range, creating personalised eyeliners, streaks of colour in the hair, blushers and body shimmers.

Beautiful, full lips with LipFusion

Looking for beautifully full lips for this festive season? We can all skip the needle and use LipFusion, with its marine collagen microspheres which attract the body's natural moisture, creating a mild "swelling" of the lip tissue. The result is fuller, smoother, perfectly plumped lips. Both moisturizing and plumping, LipFusion is available in an array of appealing colours, ideal for any occasion.

eyeSlices - the quick party fix

is a definite must-have as a quick fix for the festive season, as they help to recharge and renew the eye area, the first place we start showing fatigue. The disposable eye treatment pads, release moisture and active ingredients into the area around the eye, treating puffiness, tired eyes, dark circles, redness, irritation and the signs of ageing. Naturally rejuvenating, eyeSlices are encapsulated in a patented Hydrogel Technology, with its key ingredient Aloe Ferox that unlocks the soothing, calming and restorative properties.

Korres Rice Proteins Serum - The ultimate hair solution

This silicone-free serum protects hair from topical dehydration and mechanical stress agents (air, sun, brushing, blow-drying, and hot ironing) that cause hair to split. It deeply repairs and hydrates the hair without coating the hair with a heavy, thick film like other serums. Rice proteins remarkably enhance the hair's elasticity and tensile strength. The naturally derived resin Chitosan forms a flexible protective film, while provitamin B5 penetrates easily into the hair shaft, providing long-lasting hydration.

O3 Ozone Hair Straightener

The world's first Ozone Hair Straightener, O3 gives you sleek, shiny, "peptonic" hair, whilst "locking" your hair's colour. Designed and developed in the UK, the O3 is a must for summer, especially when used with a protein conditioner it creates a smooth, shiny, lustrous finish, reducing static, and taming flyaway hair by creating a layer of peptides around the hair.
